GENERAL CONDITIONS OF GOVERNMENT STORES CONTRACTS.

1. The envelope containing the Tender must be endorsed "*Tender for Supplies, 1900 and 1901.*"
2. The lowest or any tender will not necessarily be accepted.
3. Attached to each Tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract, in the event of the Tender being accepted, and undertaking, in such case, that they will severally execute and deliver, at the Office of the Government Storekeeper, in Brisbane, within fourteen days from the notification of acceptance of the Tender, a bond to Her Majesty for securing such performance, computed at 10 per centum on the estimated value of the Tender.
4. It will be optional for persons to Tender for any one or more of the classes into which the supplies are divided, but no Tender will be received for only a portion of the articles enumerated in any one class.
5. The Tenders must state the price at which each article tendered for is to be supplied.
6. Customs duties, and the value of all packages, are to be included in the prices named.
7. A sample of such of the articles to be tendered for as are marked in the Schedules with an asterisk may be seen at the Government Stores; where no samples are shown, it is to be understood that the articles shall be the best of their several kinds. The sample may in some respects be approximate, and is to be read in view of the fuller particulars given in the Schedules.
8. It must be distinctly understood that, where special brands of goods or makers' names are used in the Schedules, only goods fulfilling those conditions will be accepted. In other cases, articles equal in every respect to the sealed samples may be supplied.
9. In the case of those Schedules where no quantities are expressed the contractor will be bound to furnish as much or as little of the articles tendered for as may be required. Some of the items may not be required at all. Quantities taken in previous periods can be seen; but it must be understood that no quantities are guaranteed, and the information given is without prejudice.
10. Where weight or measurement is expressed, and the articles tendered fall short of the stipulation, the Government Storekeeper may, should he think fit to accept the articles, make a rateable reduction from the price, calculated proportionately by the value per unit of the expressed weight or measure, or he may accept such portion as fulfil the terms of the contract, and reject the remainder.
11. In the case of articles which, upon examination, *after delivery*, are found defective, the Government Storekeeper may call upon the contractor to replace same with the proper article, and may refuse payment or certificate for payment until due substitution is made.
12. When goods of any one kind are delivered in large quantities they shall be in original packages, but no claim will be allowed for such packages.
13. In cases of urgency the Government Storekeeper may purchase any of the articles enumerated from others than the contractor.
14. In the event of any articles not included in the Schedules being purchased from a contractor, a discount of 2½ per cent. will be deducted on payment for same.

15. In the event of any failure or delay on the part of a contractor in supplying articles as required, they may after forty-eight hours' default be procured by the Government Storekeeper at the risk and expense of the contractor, and the excess of cost, if any, shall be deducted from any moneys payable to the contractor.

16. In the event of a difference of opinion between a contractor and the Government Storekeeper as to the quality of any articles supplied, the decision of the Minister shall be final and binding upon the contractor.

17. It is to be distinctly understood that the conditions of these contracts are not to be considered as infringed by the Government should they obtain similar supplies under other departmental contracts.

18. It shall be in the power of the Government to terminate a contract forthwith on the report of the Government Storekeeper that persistent irregularity exists in the quality of articles tendered, or that unnecessary delay in delivery or in replacing them when required occurs; the defaulting contractor shall, however, retain the privilege of delivering, as required, articles bearing a distinctive Government mark or brand to the extent of the shipments, not exceeding the stipulated quantity, he may then have *en route*.

T. M. KING,
Under Secretary.

MEMORANDA RELATING TO REQUISITIONS ON THE GOVERNMENT STOREKEEPER

FOR

STATIONERY

AND

OFFICE REQUISITES.

THESE should be made on the Government Storekeeper *on the special form provided*, which can be obtained at the Government Printing Office, for a six or twelve months' supply, according to the extent and work of each office, *care being taken to state on the Requisition the period for which the supply is asked.*

The columns provided for "Last Supply" and "Stock on hand" should be *carefully filled in*, otherwise the Requisition may be returned for amendment.

Applications should be prepared at the *close* of March and [or] September by—

All Officers in the Departments under the Chief or Home Secretaries,

Gold Wardens and Mineral Land Commissioners,

Land Agents and Land Commissioners;

and at the *close* of June and [or] December by—

All other Officers and Departments.

The stationery requirements of the Police and Prisons will accompany their annual or semi-annual demands for general Stores.

In accordance with the Executive Minutes of January and July, 1889, articles made in the Government Institutions have to be paid for by the Department asking for them: the price is assessed at the cost of the material only.

By direction of the same minutes, surveyor's and drawing materials are also supplied at the expense of those asking for them.

In preparing their requisitions Public Officers will please note that the enumeration of any particular article in the following schedules does not necessarily warrant application for it as a *free issue*. The majority of lines there appearing are provided for the service of those Departments and Institutions, having maintenance votes, who pay for their requirements on the certificate of the Government Storekeeper.

No. 1.

STATIONERY.

Thomas Brown and Sons, Limited.

Attention is directed to the General Conditions set out in *Gazette* notice.

* Denotes that a sample is shown, but as it may be approximate it is to be read in conjunction with any fuller description given herein.

The quantities named in the margin are those that will be required, and except as otherwise stated, delivery must be made of one-fourth as at the first day of the months of January and July in each year. The Contractor must, however, supply immediately on demand any additional quantities that may be asked for.

ENVELOPES.

Webster and Co.

Attention is directed to the General Conditions set out in *Gazette* notice.

* Denotes that a sample is shown, but as it may be approximate it is to be read in conjunction with any fuller description given herein.

The quantities named in the margin are those that will be required, and except as otherwise stated, delivery must be made of one-fourth as at the first day of the months of January and July in each year. The Contractor must, however, supply immediately on demand any additional quantities that may be asked for.

In view of the foregoing provision, the Government Storekeeper will, in the event of a Contractor not becoming a successful tenderer, upon the next following occasion of calling for supplies, relieve him of any reasonable quantity of such of the within-named Envelopes as bear a distinctive Government mark.

The weights when named are exclusive of wrappers.

No. 5.

BLANKETS.

(Q \blacktriangle G)

Thomas Brown and Sons, Limited.

Attention is directed to the General Conditions set out in *Gazette* notice.

* Denotes that a sample is shown, but as it may be approximate it is to be read in conjunction with any fuller description given herein.

The blankets are to be similar in colour and quality to sample shown, but of the weight and dimensions named herein, and to be delivered, as required, in original bales of 50 pairs each, packed in tarpaulin, paper, and canvas covers, and dumped so as not to exceed 18 feet cube. The quantity required in the two years is 20,000 pairs, and there must be available each year, if required, 3,000 by 10th January, 3,000 by 10th February, 2,000 by 10th March, and the remainder at any time during the year, as they may be called for.

The border to consist of 3 bands of colour, commencing 6 inches from either end: the centre one being of bright blue, 1 inch wide. Those on either side to be $\frac{1}{2}$ -inch wide; in the case of 16,000 pairs, of bright yellow and of bright red in the remaining 4,000 pairs.

The emblem Q \blacktriangle G, in letters of about 1 inch in thickness and about 10 inches in length, of bright blue colour, to be wrought in the centre of each pair, in such a way as to render the extraction a matter of difficulty. The fabric to be *afterwards* teased.

No. 16.

LEATHER.

M. J. Gallagher.

Attention is directed to the General Conditions set out in *Gazette* notice.

* Denotes that a sample is shown, but as it may be approximate it is to be read in conjunction with any fuller description given herein.

The price of 1 lb. will be deducted for every brand on leathers scheduled at per lb.

Leathers scheduled at per side must be absolutely free of brands.

Brown harness to weigh 16 lb. per side for leather measuring 40 inches by a line drawn from back to belly across the centre of side, and not to exceed 1 inch on the same line for every lb. over 16; sides below 16 lb. to measure proportionately less by a similar line.

Bridle to be clean both sides, and to weigh a lb. for every foot of length from neck to butt.
